NRO REVIEW COMPLETED.

23 November 1966

MEMORANDUM FOR: Plans and Programs Staff, DD/S&T

25X1A
ATTENTION: [REDACTED]

SUBJECT: DCI Briefing

25X1A
1. This memorandum confirms [REDACTED] telephone conversation concerning OSA's participation in the scheduled DCI briefing.

2. As you are aware, there is continual liaison between the Director of Reconnaissance and the DCI on policy matters concerning our activities. For this reason we believe the DCI is generally informed on the status of our activities and propose that the time allotted to OSA be limited to about ten minutes. During this time frame, we would propose three major topics for brief discussion:

- a. IDEALIST Assets and Flight Test Program.
- b. U-2R Program - Purpose and Schedule
- c. OXCART Assets and Flight Test Program

3. Following your meeting with the Acting DD/S&T on this subject, we would appreciate your guidance on the general scope of the briefing and any specific comments you may have regarding paragraph 2 above.
